- The ISO 5 machine is intended for removing all types of blown insulation and for recycling wet spray.
- Built and machined of welded steel, it is mounted on wheels for easy movement.
- The ISO 5 vacuum is designed with a steel fan and chamber, powered by a rugged HONDA 13HP gas engine. It allows autonomy and efficiency to your work.

DATA SHEET

CHARACTERISTICS	ISO 5
Dimensions (m)	L=0,60 W=1,00 H=0,50
Weight	80 kgs
Engine	Thermal engine HONDA 13HP gasoline
Hose Diameter	Ø 100 mm
Hose maximum length	30 m
Height maxi	20 m
Feeding	Manual
Flow rate	Up to 300 kgs/h (all types of blown insulation)
BIG BAG dimensions (m) Volume	0,95 x 0,95 x 1,40 approx. 1,3 m3
BIG BAG effective load	150 kgs

The ISO BIG BAGS are especially designed to be used with our ISO 5 machine.

They allow to remove all types of blown and wet sprayed insulation, without making any dust.

Our new ISO BIG BAGS are reusable.
