- The ISO 3 machine is intended for the blowing of glass fibers, rock fibers, cellulose, ceramic fibers and pulverizable products having low density, such as vermiculite etc.
- Built and machined of welded steel, it is mounted on wheels for easy movement.
- This machine runs on an electric motor (230v single-phase) and allows autonomy and efficiency to your work.

DATA SHEET

CHARACTERISTICS	ISO 3
Dimensions (m)	L=0,70 W=0,70 H=0,90
Weight	100 kgs
Motor	2,2 kw 230v mono 10a
Hose Diameter	Ø 100 mm
Hose maximum length	40 m
Height maxi	15 m
Feeding	Manual
Flow rate	Up to 350 kgs/h (depending on the product)
